# HILL'S LINING-OUT EVERGREENS

The quantity production of high quality, lining-out evergreens has long been a specialty at Hill's. Emphasis has always been placed upon quality methods of production. New means are continually sought by which it is possible to offer at a reasonable price, material which will turn over quickly for you and return the greatest margin of profit in the least number of years. For this reason, we do not offer many rooted cuttings nor pot grown plants . . . all transplants are from open field beds or field rows. There is no substitute for age and northern growing conditions.

	100	1000		100	1000
<b>Juniperus Chinensis Pfitzeriana</b> [Pfitzer Juniper] 6-8" xx Flat	\$ .30	.27	<b>Taxus Media Browni</b> [Brown's Yew] 8-10" xx Frame		.44
